Dear Sherrill,

On behalf of the Board of Directors for Argus Residence for Young People please accept our heartfelt thanks for your generous donation of food made to our organization. Please know that your contribution has made a significant impact on the lives of youth experiencing homelessness in our community.

As you may be aware, Argus Residence for Young People provides emergency shelter to youth, without a home in our community. Since 1985, Argus has been committed to a vision of fostering personal growth and awareness among homeless youth. Today we operate two 24-hour shelter locations: a 10-bed shelter for young women and a 10-bed shelter for young men. Argus is unique in the Waterloo Region due to an ability to amalgamate the essential services of food, shelter and 24-hours staff support with a comprehensive life skill acquisition program which works to mobilize youth toward healthy and viable community integration.

Once again, thank you so much for your support. We could not provide this much needed service without it. Together, we understand that an investment in the lives of youth is a wise investment in our collective future.

Sincerely,

Eva Vlasov  
Executive Director
